- milling
 - lathing
 - drilling
 - threading
 - boring
 - stamping
 - polishing
 - deburring
 - grinding surfaces, holes, rollers
- We provide machining services on 3, 4, 5-axis machines equipped with robotic sockets

OUR MACHINERY

CNC milling machines

- Mazak VARIAXIS J-500/5X + robot
- Mazak HCN 4000
- Mazak VCS 530C
- Mazak VTC 200CII
- Mazak HTC 400
- Mazak AJV-25/405
- Mazak VTC 20B
- Brother TC 32BN
- Brother TCS2DN
- Avia VMC 800
- Avia VMC 1000

CNC lathing machines

- Mazak QTN 100MY
- Mazak QTS 250M
- Emag VL4

CMM measuring machines

- Cord 3 Universal
- Axiom Too 900 HS
- Axiom Too 900
- Zoller Smile 400
- Nikken XZ 236
- Sylvac 600
- Mitutoyo SJ-301
- Rockwell 600A

Other machines

- Easy Marker - micro point marker
- Jotes SPD 30B - surface grinding machine
- Bomar Proline 320.280 ANC - automatic saw
- Bomar Ergonomic 320.520 DG - gravity saw
- conventional milling machines - horizontal, vertical
- conventional drills - column, table

DESIGNING

We employ experienced constructors, technologists and CAD and CAM programmers who deal with the design of equipment for our own needs and the needs of our customers

ASSEMBLY OF ELEMENTS

We provide assembly services

MEASURING SERVICES

We have the ability to make measurements using coordinate-measuring machines

PERMANENT MARKING

We provide permanent marking services using the micro-point and laser method

FOR THE NEED OF THE CLIENT

We make details comprehensively with galvanic, thermo-chemical treatment, painting, trowalizing, thermal deburring, washing and maintenance, including bending, plasma and laser sheet metal burning
